

# *UIB Final Project*

*In this project*

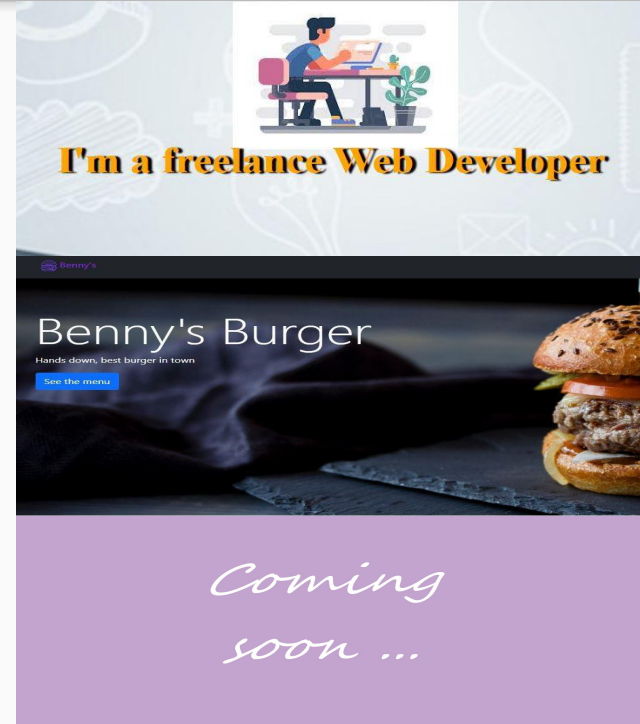

*About (main page), Work (project page), Contact  
page*

# About page

*In this page you see an animated  
text that shows a little  
information about me*

# Work page

*In this page you can see my recent projects that I did and since I'm working on different project every day that's why you have also windows with Coming soon ...*

# Contact page

*Here I have a contact form where you can send me a message but you can find me in different social medias that are on the bottom on the page*

A purple envelope with a white contact form inside. The form has three sections: NAME, EMAIL, and MESSAGE. Each section has a text input field.

## Things I found challenging

*Finding the right layout , what to put in the page it self and how to structure it .*

*Sometimes the animation won't work how it supposed to .*

## Things I learned

*How to position properly certain items , be more creative in my code and not adding pictures instead for everything as a solution*
